

U-center International treatment center

In august 2020 U-center opens a second U-center especially for International clients. At U-center we use a *unique method* to treat clients with mental health disorders and addiction. Situated in a converted hotel, the new treatment center is peaceful and comfortable, so clients can make a fresh start and focus on their recovery.

24

guest rooms

7

consultation rooms

group-therapy rooms

Feel at home

Located in the beautiful countryside of South Limburg, just on the border of Belgium and Germany, U-center provides two locations where you will feel at home immediately. The two clinics are a five minute walk from each other. Our new treatment center for internationals (English speaking clients) is situated on a hillside overlooking the idyllic nature of the protected Geul valley (Geuldal).

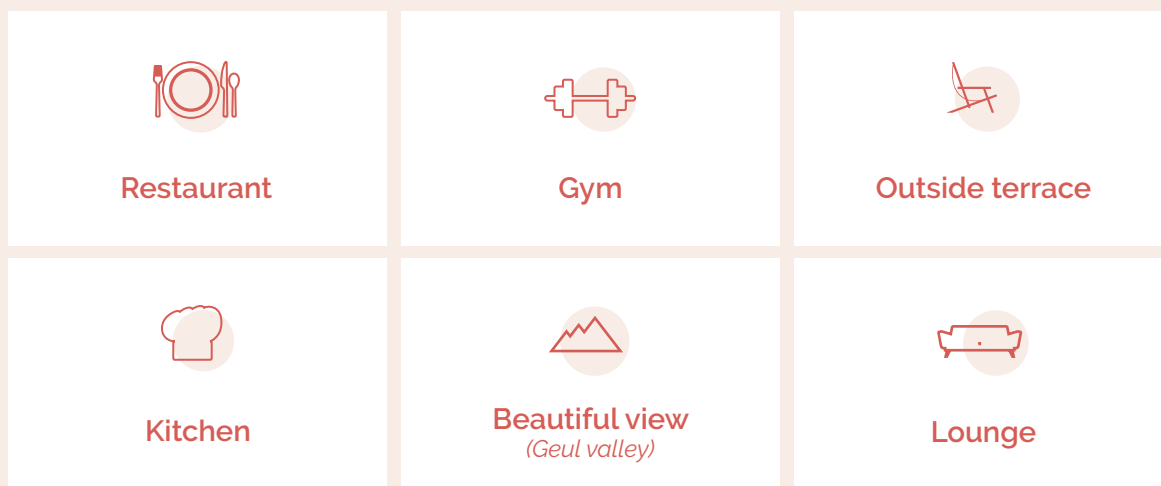

Healing environment

U-center International is located in a former hotel which has been renovated in the summer of 2020. It is comfortably furnished, private and peaceful so that your patients can fully concentrate on their recovery proces. The surroundings also play an invaluable role in that process. A beautiful, quiet location does wonders for our mental state. We take this into full consideration and you can both see and feel it on our premises.

Our facilities

Our behavioral health hospital is not only equipped with all the necessary facilities for an outstanding treatment, but also provides many other amenities that make guests' stay more pleasurable. Our excellent restaurant offers a menu that changes daily. Our chef creates a varied menu incorporating fresh local products. We can also cater to dietary needs and allergies. The fitness room and lounge provide relaxation options. Facilities such as a swimming pool and art room are available in our other clinic on the other side of the street where we treat all our Dutch speaking clients.

Start the U-turn

In an intensive residential programme lasting seven weeks, we help to realize the U-turn – the point at which your patient makes lasting change in his mental health condition. Problems often do not come alone but are interconnected. U-center is an expert in treating complex co-occurring disorders. We treat multiple disorders in parallel. Our integrated approach is unique and fully tailored to each personal situation. The treatment programme is designed so that the client can resume his role in society again as soon as possible.

The setting of our center contributes to the treatment programme. Our center is serene and welcoming, in short the ideal place to start the U-turn!
